HOW TO TAKE A SCREENSHOT IN SIMCITY

PC USERS:
1. Press the “c” key on your keyboard while playing SimCity.
2. The screenshot will automatically be stored in your SimCity Pictures folder on your computer’s hard drive.

MAC USERS:
1. Press shift, command, and the number 4 keys all at the same time, while playing SimCity.
2. A cursor that looks like a plus sign will pop up.
3. Drag cursor over the area you want to take a screenshot of and release the mouse.
4. Screenshots taken this way will be saved on the desktop of the computer you are using (not in the SimCity Pictures folder).
