

future City

COMPETITION
CAPITAL DISTRICT, NY

FUNDRAISING BROCHURE

2021-2022

REGIONAL AWARDS CEREMONY: January 22, 2022, via Zoom

First Place: Richard H. O'Rourke Middle School
Sponsored by Capital District E-Week

What is the Future City® Competition?

The Capital District Future City Competition is an educational program for middle school students to use their creative, innovative imaginations to design a city of the future. The students work with their teacher coach and an engineer volunteer mentor from the community to design and build the city. The students apply math, science, engineering, and technology, as well as enhance their writing and presentation skills, through this project.

Through the September to January program, 6th, 7th, and 8th grade students work in teams to apply their imaginations and early engineering skills to design a realistic city of the future. With the guidance of their teacher and engineering mentor they will:

1. Follow the engineering design methodology.
2. Develop a Project Plan.
3. Research and write an essay on this year's topic.
4. Build a 3-D model of their city.
5. Present their city and solution to this year's challenge.
6. Participate in a virtual Q&A session.

Second Place: Independent Team
Sponsored by CHA Consulting, Inc.

Third Place: Broadalbin-Perth Middle School
Sponsored by Siemens Industry, Inc.

Fourth Place: Farnsworth Middle School
Sponsored by American Council of
Engineering Companies (ACEC) of New
York, Eastern Region

Fifth Place: Latham Ridge Elementary School
Sponsored by American Society of Highway
Engineers (ASHE)

or (518) 807-6189.

If a Bronze Sponsor or higher, contact our awards sponsor coordinator for more information:
fcc.albany.awards@gmail.com.

This Year's Essay Topic:

"A Waste-Free Future." Students are asked to design a waste-free city using the three principles of a circular economy: (1) regenerate natural systems, (2) design out waste and pollution, and (3) keep products and materials in use.
