2016-2017 New Jersey Regional Future City Competition

Thank you for joining us on this 10th year of the NJ Regional Future City Competition. This event is part of DiscoverE Engineers Week, which started 25 years ago and has grown to include over 40,000 students from across the country. The Future City Competition allows students to perform engineering tasks and learn about the engineering profession, all while having a great time!

Rutgers and the Center for Advanced Infrastructure and Transportation have been with us since the NJ Region’s first year, hosting our competition. Please join us in thanking them for their support!

During the registration period, your team was assigned a color. To ensure the success and enjoyment of all participants, we ask that you follow the schedule on the next page according to your assigned color.

Thank you, we look forward to another fantastic Future City Regional Competition!

Sincerely,
Erica “Sunny” Mullen, PE
Future City NJ Region Coordinator
## Agenda

### COMMON SCHEDULE

The 2016-2017 NJ Region Future City Competition team would like to extend our heartfelt thanks to this year’s Diamond Sponsors. The committee would like to give special thanks for their ongoing contribution to the NJ Region Future City Competition.
Rob Eisenstat, AIA, LEED AP  
Chief Architect  
*PANYNJ Engineering Department*

Rob Eisenstat has been an architect in the PANYNJ Engineering Department for the past 25 years. As Chief Architect, Rob leads the 40-person Architectural Unit as it plans and designs projects in collaboration with in-house engineering disciplines and private consulting architects and engineers.

Rob Eisenstat was the Principal Architect for the World Trade Center Redevelopment Program. He co-directed, with Chief Architect Robert Davidson, the transportation planning for the site and the design of the World Trade Center Viewing Wall and Temporary PATH Station.

Throughout Rob’s tenure at the Port Authority, he has been responsible for the planning and design of significant transportation and infrastructure projects for the agency’s airports, bridge and tunnel facilities, and PATH commuter rail. His portfolio includes improvements to Newark Airport Terminal B, airport parking facilities, redevelopment at the George Washington Bridge Bus Station, and a new PATH Station in Harrison, New Jersey.
The 2016-2017 NJ Regional Future City Competition would not be possible without the tireless efforts of our participating volunteers. We would like to thank all of the volunteers who helped to make this program possible. There are many others who volunteered after the printing of this program whose names are not shown here.

When you see volunteers today, please thank them for their support!

**STEERING COMMITTEE & ADVISORS**

- **Erica (Sunny) Mullen**
  Region Coordinator & Activities Coordinator
  *Maser Consulting*
